OGDEN BENCH CANAL CO.

The stockholders of the Ogden Bench The stockholders of the Ogden Bench Canal company held a meeting in the Fourth ward hall last evening. The reports of the secretary and treasurer, also the president, were received and approved. The president's report showed the company to be in a good condition financially and that the canal systems was in excellent repair, also that during the past year the company had experienced no extra expense on account of breaks in the canal, which have heretofore been very frequent, also that there had been no litigation during 1900. A vole was taken and the assessment for the year 1901 was fixed at 3 cents on every share. No other business of importance was disposed of. OGDEN CANYON CATASTROPHE.

canyon is causing the county officials as well as the Utah Power company much concern because of the danger of the large cliff of rocks, which runs up to the power company's pipe line, slipping down into the canyon. Yesterday the scene of the land slide, which took lace Sunday, was visited by commissioner Wilson, County Surveyor Parker and other gentlemen for the purpose of deciding on what should be done. Mr. Wilson said to the "News' representative that before the canyon is reopened for traffic it will be necessary for the loose projections of rock to be blasted loose, which may take one day or a week, it depends upon the effect the blasting will have on the crevice which has opened up, running down from the overflow shaft of the Power company's line. Mr. Parker says "the crevice has spread threequarters of an inch since Monday, and that if a thaw should come now and thaw out the frozen gravel and rock, it is very possible that a large portion of the cliff would slide off and perhaps fill the canyon half full of rock, and the question now is whether the county must stand the expense of placing the canyon in a good safe condition or whether the Power company will stand the expense." The scene of the land slide was also visited by General Manager Campbell and Manager Wade with the State engineer but what their de cision was they do not care to give out for publication. At present danger notices have been posted at the mouth of the canyon and up east of the slide and boards nailed across the roadway to keep people from going up or down. The work of blasting will be commenced tomorrow and the road placed in order as quickly as possible, and it may be ready for use by Sunday with a tem-

Dr. Parkinson, county quarantine physician, returned from Salt Lake vesterday and announced that the orler of the state board of health must be enforced as to the county schools. The Logan city board of education, it is understood does not favor the en-forcement of the order, and may take a stand against it, on the ground that there is no epidemic prevalent in Logan, and that the attendance at the schools would be decreased more than ne-half on account of the widespread sentiment against vaccination in this city. The colleges have as yet not en-forced the order, and feel averse to doing so for similar reasons.
